

WATER DEPARTMENT
DAILY WORK REPORT

October 15 – November 3, 2019

Performed daily operations, U.F.P.O's. Received PFOA, PFOS report, all readings non-detectable or less than 2 parts per trillion. Changed curb box at 215 Reading Rd. and looked into piping nearby. Found small leak, investigating further. Met with MRB Group and went over their analysis of system. Severed old tank from system and started draining. Went through job applications. Went to laboratory training in Waterloo. Looking into the repair of hydrant in front of laundromat, ordered parts. Had new tires put on 2014 ford and oil change on 2018 ford.
